

AP Statistics Practice Exam
Saturday, April 7, 2012
8:00 AM – 1:00 PM
Lynnfield High School

The Salem State Collaborative will be sponsoring a practice AP Statistics Exam on Saturday, April 7th 2012. The session will allow students to take the released 2007 AP Statistics exam in a timed atmosphere. Students will start the exam with the open response questions, followed by the multiple-choice questions. This allows time for the instructors to grade the open response questions while the multiple-choice sections are being administered. Following student dismissal, lunch will be served to teachers. Teachers will also receive the graded tests for each of their students and a complete answer key.

Registration is \$10 per student for schools that are members of the Collaborative and \$20 per student for non-member schools. Since teachers are needed to help grade the exams, we ask that one teacher per every 12 students attend. ***Only students accompanied by their teacher(s) will be allowed to participate.*** A completed registration form listing the students participating is due by **Friday, February 10, 2012.** *Space is limited. Please reserve your spot early to avoid disappointment.*

If you have any questions, please contact Karen Ellis at Lynnfield High School 781-334-5820, ext 4209 or e-mail ellisk@lynnfield.k12.ma.us.

<u>Schedule of Events</u>	8:00	Registration and Breakfast (for all)
