Fee: \$75 for Member Districts \$225 for non-Member Districts

For Registration and Member List visit <http://www.salemcollaborative.org> Make Checks or Purchase Orders payable to CPMSIE and bring to the first session.

Description:

This workshop will focus on the Common Core Math Frameworks by grade level. Participants are asked to bring their math books and curriculum guides to the workshops as the discussion at each of the meetings will be on how to arrange your current materials with the frameworks and how to supplement your existing program so that the goals of your grade level are met.

A portion of the first meeting of the workshop will be held jointly with grades 1 – 4 teachers as there will be a presentation on how the four grades are related and how the program is supposed to flow from grade to grade.

The focus of the six meetings:

1. Examine the Common Core National Standards for Teaching Mathematics
2. Review the current mathematics program at the participant's school for grade level taught
3. Align current grade level expectations to the national standards
4. Planning and implementing lessons in mathematics
5. Infusing technology to support instruction

Note: If you have registration questions, please email registration@salemcollaborative.org or call Jim Kearns, CPMSIE Executive Director at 781-771-4860.
