**Description:** Making math fun will be the focus of this workshop. Participants will explore card, dice, and other math games and activities to reinforce math concepts and skills. Whole class, small group, and partner activities will be presented. Using games can motivate students and engage them in thinking about and applying math concepts and skills. The games and activities can be incorporated into any math program that is being used. Strategies on how to incorporate games and activities into a math instructional block will also be explained.

**Note: If you have registration questions, please email [registration@salemcollaborative.org](mailto:registration@salemcollaborative.org) or call Jim Kearns, CPMSIE Executive Director at 781-771-4860.**
